“Workshop on Carbon Footprint calculations”

The screenshot shows a web browser window with the URL climatecollectivepune.org/CPC/. The page has a green header with the text "HOW TO USE THE CALCULATOR?". Below the header, there is a section titled "Carbon footprint is calculated by estimating the overall energy use by the individual during various activities." followed by a paragraph explaining the calculation process. A green button labeled "Submit For Calculation" is visible. At the bottom, a green footer contains the text: "This Calculator is developed by Samuchit Enviro Tech and introduced online by Climate Collective Pune. Please contact climatecollectivepune@gmail.com for any suggestions or queries."

CLIMATE COLLECTIVE PUNE

HOW TO USE THE CALCULATOR?

Carbon footprint is calculated by estimating the overall energy use by the individual during various activities.

These include emissions from direct use of fossil fuels in electricity, cooking and transport. And a few indirect emissions like the processing and distribution of fossil fuels, use of RCC in construction, furniture in the house and processing of organic waste.

Hence, Carbon footprint is calculated by adding direct and indirect emissions. This calculator is designed for people living in Urban India to estimate carbon footprint.

Follow the four Steps and enter all details to calculate your Carbon Footprint.

Click On Submit for proceed to CARBON FOOTPRINT CALCULATION

Submit For Calculation

This Calculator is developed by Samuchit Enviro Tech and introduced online by Climate Collective Pune. Please contact climatecollectivepune@gmail.com for any suggestions or queries.

*Most often, you learn to love
Ultimately you learn to unlove
It's then you realise there's self in YOU
Loving yourself is important than
anything and everything
Free your soul from negativity
Free your soul from the fear of not being
perfect
Just make changes in YOU by not
comparing yourself with others because
you are absolutely unique here just like
everyone else
Learn to face challenges and to handle it
calmly
Everything is temporary here
What remains constant is YOU
So love yourself wholeheartedly
See the change it brings in YOU.*

~Pallavi Deshmukh
